Four Great Cemeteries Represented in Little Room at Chalons-sur-Marne.

TOWNSFOLK PAY TRIBUTE

Legion of Honor Medal to Be Conferred on Arrival at Havre To-morrow.

By the Associated Press.

CHALONS, France, Oct. 23.—Four bodies of unidentified American soldiers who fell in the world war from among whom will be chosen America's "unknown soldier" for burial in Arlington, were taken this morning to the City Hall in preparation for the simple ceremony. One body was from each of the four permanent American cemeteries in France—Bourges, Triancourt, Bony and Belleau Wood.

Sgt. Edward S. Younger, Headquarters Company, Second Battalion, Fifteenth Infantry, was selected by Major R. P. Harbord, in charge of the operations of the American Graves Registration Service, to choose the body for interment. Sgt. Younger will be one of the six pallbearers accompanying the body to Havre, and was selected for this honor on account of his superior service record.

Many Bodies in Lottery.

He is to choose from among the four Americans the one who will forever symbolize the sacrifice of American sons in the war. These four bodies were picked from the lists of soldiers buried in the cemetery who were beyond all possibility of identification.

An American Army truck took the bodies to Chalons, where a French guard of honor, composed of poilus who saw action, took the coffins and carried them from the public square to a little room in the City Hall, while thousands of the residents looked on silently and uncovered. French soldiers rendered military honors. The coffins are of plain wood, draped with the American flag and the room in which they lie is a mass of red, white and blue flags and bunting.

Non-commissioned officers from Co. B, 15th Infantry, stood guard at night in a dimly lighted room, while in an outside room the French guard of honor took up positions where vigil will be kept overnight.

Flowers Heaped on Coffins.

The people of Chalons heaped flowers at the foot of the coffins. There were sad scenes when the French widows paid the final tribute to the American dead.

The ceremony of selecting the body will take place to-morrow, and will be brief and simple. The room will be cleared at 10 o'clock in the morning and Sergeant Younger will receive flowers from Major Gen. Henry T. Allen, commander of the forces on the Rhine, go into the room and place the flowers on one of the four coffins. The body thus chosen will be removed immediately to another room and preparations will be made for the long journey to Arlington. The other three bodies will be reinterred in Romagne Cemetery to-morrow afternoon.

The "unknown soldier" will lie in state in the rotunda of the City Hall from 1 o'clock to-morrow afternoon until 5, when the body will be taken to a special train, with an escort of twenty-four non-commissioned officers of the American forces. The train will remain overnight in the Paris yards under guard and will proceed to Havre on Tuesday morning, where the French ceremony concerning the Legion of Honor will be held.

CABRERA IN COLLAPSE AS HE AWAIT'S DEATH

Condemned Ex-President Unable to Speak Clearly.

GUATEMALA CITY, Guatemala, Oct. 23.—Manuel Estrada Cabrera, former president of the republic, who was sentenced to death last month for the murder of Jose Coronado Aguilar, who was among those killed during a bombardment of the city by the Cabrera forces in April, 1920, lies in the jail here awaiting the execution of his sentence.

A deputation of the Workers League, accompanied by the Minister of War, yesterday visited Cabrera in his cell. They found the prisoner in a state of dejection. His replies to questions asked him were incoherent.

TURCO-FRENCH TREATY RATIFIED BY ANGORA

Frontiers Are Fixed and Economic Concessions Made.

CONSTANTINOPLE, Oct. 22.—The Angora Assembly to-day ratified the Turco-French treaty by an overwhelming majority. The treaty fixes the frontier to the north of Alexandretta. The new line embraces Marash, Antakya and Latakia and extends to the Persian border.

The Turks concede French economic priority in the vilayets of Adana, Diarbekir, Sivas and Erzurum. The French recognize the Angora Government.

WAR ON HONDURAS BORDER

Nicaragua Continues Martial Law; Prepares for Revolt.

MANAGUA, Nicaragua, Oct. 23.—The Government yesterday issued a proclamation declaring martial law to continue throughout the entire country for another sixty days and proclaiming that a state of war exists in five north-western departments, three of which border on Honduras.

Government officials have information that after the present small attacks across the Honduras boundary have harassed Nicaragua a large and serious revolutionary movement is planned for November.

COLLEGE GIRLS TURN FIRST NEWS PAPER EDITORIALS

Radeliffe Census Shows What Women Students Prefer in Their Daily Reading—Headlines Play Big Part in Making Articles Attractive.

Special Dispatch to The New York Herald.

CAMBRIDGE, Mass., Oct. 24.—Radeliffe College completed a census of its newspaper reading students to-day and definitely established the following facts: Of the 600 students at Radeliffe, 95 per cent read the newspapers habitually; 55 per cent read some local (Boston) paper, in addition; 70 per cent of them read one or more of their home town papers as well.

A questionnaire which the students answered for the census demanded information on editorials, headlines and "favorite sections" of the readers, and the range of answers may help managing editors solve an age old problem of the newspaper world—namely, "What do women really like to read?"

Sixty-two per cent of the Radeliffe girls read editorials in their newspapers regularly and 25 per cent of the editorial page as their "favorite section" of the paper. The regular news columns run second in the "favorite section" answers, 23 per cent of the girls stating that the day's news appeals more strongly to them than editorials, departments or special features.

Says one young miss, a freshman: "I read everything, murders and all." As to the reason for this sweeping statement, senior gives as her answer: "I read the first page news, exclusive of murders and divorces."

Twenty-eight per cent of the students confess that usually they read "headlines only." Forty-four per cent say they read both headlines and stories, and 15 per cent say it depends entirely on the headlines whether they read the stories.

On two of the six hundred students interviewed on the subject of favorite sections of the newspapers gave answers to cheer the business managers. One says "bargain ads," the other "antique furniture advertisements."

The sporting news polled 14 votes as against 4 votes for the women's pages. Twelve girls say theatrical news is their favorite food and six come out boldly for the comic sections. One of the latter explains that her father is a minister and her mother a poet, and that she has to get a laugh out of life somewhere.

The newspaper columnists won the scattered votes of eight girls: book reviews had twelve admirers, cartoonists six and poetry one.

One girl, who is specializing in foreign languages, announced that her favorite section was the puzzle department.

Another, who is specializing in music, gives her vote to the "real estate market." Twelve girls, or two per cent, of the dozen girls who read no newspaper regularly two naively confess that they were taking their college training preliminary to going into journalism.

The line forms on this side for the managing editors who want to put in advance bids for their services. They should have a newspaper style that at least will be all their own.

REPORT CHARLES IN SINN FEIN DELEGATES LOYAL TO DE VALERA

Continued from First Page. streets were patrolled by troops and the garrison was under arms.

By the Associated Press. PRAGUE, Czechoslovakia, Oct. 23.—Czechoslovakia is considered to be committed to the policy of absolute opposition to the return of Charles, Premier Benes having recently declared that restoration of the Hapsburgs would amount to a casus belli.

The Premier, who had been out of town, hurriedly returned to Prague and summoned the Cabinet to meet. The Parliamentary Foreign Affairs Committee will meet Monday. The Socialists, including the Germans, have called a mass meeting. It is considered significant that the German elements oppose Charles.

At the Cabinet council Premier Benes informed the Ministers that all measures had been taken to defend the interests of the republic; the accord between the members of the Little Entente was complete, and a full agreement existed for a common line of action. The diplomatic steps already taken would be supplemented by military and defensive measures.

The Cabinet resolved on partial mobilization. A semi-official statement issued after the council says that the Government is determined to obtain a definite settlement of the Hapsburg question and, in cooperation with the Allies, to do everything necessary to secure the immediate application of the treaty of peace.

By the Associated Press. LONDON, Oct. 23.—The Sinn Fein delegates who are attending the conference with Government officials in an endeavor to bring about peace in Ireland were in consultation to-day concerning to-morrow's meeting. Those in close contact with the Irish delegation assert that none of the delegates will do anything which might be construed as a repudiation of Mr. de Valera.

It was declared to-day by persons near the delegates that though they are plenipotentiaries they recognize De Valera's that his telegram to Pope Benedict, though possibly untimely, represents the sentiments of the Dail Eireann, which elected them.

While professing inability to understand why the telegram should have caused trouble, it was asserted that the delegates think a way out of the situation may be found by their admitting that although allegiance to the King now is denied, association with the British commonwealth may be arranged in a conference on terms.

Opinion to-night in London was hopeful that the crisis over Ireland will be surmounted. There was a large gathering in Trafalgar square this afternoon to celebrate the anniversary of the death of Terence MacSwiney, Lord Mayor of Cork, who died in Brixton Prison while on a hunger strike. Frequent reference was made by speakers to the telegram of Eamon de Valera to Pope Benedict, which was endorsed by the gathering.

Branches of the Irish self-determination League organized processions which, carrying banners and headed by bands, marched from various districts in the city to Trafalgar square. Notwithstanding the rain which fell it is estimated that nearly 20,000 persons took part in the demonstration.

CHARLES EXPECTED A'D OF LEAGUE OF NATIONS

Could Have Gained Throne in Former Attempt, He Says.

GENEVA, Oct. 23.—Former Emperor Charles, speaking with an Austrian aristocrat recently, said, according to the Geneva Journal: "Had I been willing to sacrifice human lives on my last trip to Steinhilber I would be on the Hungarian throne to-day. I shall return shortly, this time not secretly, but under the protection of the League of Nations, which will respect the rights of peoples to dispose of themselves. And the Magyars demand the return of their King."

"Nobody did anything against the Greeks when they recalled their King, as was the case with the Venetians," he said. "I cannot prevent the course of history."

FRENCH AND BRITISH UNITE TO AVOID WAR

Ministers Also to Oppose Restoration of Charles.

BELGRADE, Jugoslavia, Oct. 23.—Three divisions have been called to the colors to reinforce the troops on the Hungarian border, and all railroad communications with Hungary were occupied last night. The Government is in communication with Czechoslovakia and Rumania, as well as with the Allies, so that all may act in harmony.

The French and British Ministers have promised the support of their Governments, in an effort to avoid warfare and yet prevent the restoration of Charles.

COLLINS OFF TO LONDON, SILENT ON SITUATION

Sinn Fein Finance Minister Has Many Consultations.

DUBLIN, Oct. 23.—Michael Collins, Minister of Finance in the Dail Eireann and one of the members of the peace delegation, left Dublin for London to-night. Since his arrival here last week he has been in consultation with colleagues and heads of various departments.

Prior to leaving, Mr. Collins said there was nothing of any value that he could say concerning the Irish situation.

ANARCHISTS SEIZED NEAR U. S. EMBASSY

Continued from First Page. newed menace from the extremists he declared to The New York Herald correspondent: "We have given Paris Communism the biggest blow it has yet received and it is doubtful whether the Reds and Anarchists will be able longer to continue their solidarity."

Guards will be maintained at the embassy and the Ambassador's residence until the motion to give Sacco and Vanzetti a new trial is heard in Massachusetts. A special detachment of experts from the prefecture has been assigned to trace the origin of the Communist movement, which has so aroused the entire French officialdom.

By the Associated Press. PARIS, Oct. 23.—American military police, long absent from Paris, reappeared to-day. Two were on guard near the American Embassy and others were stationed at the passport bureau.

The Italian Embassy also was heavily guarded during the day. French courts were kept in session, but the judges had little to do, as only six arrests were made.

On the morning of the explosion of the bomb in his home here last week Ambassador Herrick took out an accident insurance policy for the employees and also against damage to his residence. Mr. Herrick, under his contract, must make good to the Duc de Broglie the \$5,000 damage which was done to the house and furniture.

London, Oct. 23.—A Sacco-Vanzetti demonstration outside the American Embassy here to-day failed to materialize. There was a small Communist gathering in Whitechapel, which protested against the allegiance to the King. The rain dampened the enthusiasm of the demonstrators and the proposed march to the American Embassy was abandoned.

SHIELDS IN PARIS FORT EXPLODE; PEOPLE FLEE

Fire Reaches Portion of Ammunition Stores.

By the Associated Press. PARIS, Oct. 23.—Soldiers to-night hurriedly compelled the evacuation of the population in the vicinity of the fort at Aubervilliers, two miles outside Paris, when fire developed and caused the explosion of gas and other shells. The fort is one of the chain of forty forts surrounding Paris. It is situated to the northwest of the city.

Shortly after the fire originated the flames reached a portion of the ammunition stores, and when the shells began to explode fire apparatus from Paris was sent to the scene and troops were called out.

SOVIETS ACCEPT OUR FOOD DRAFT SYSTEM

Deliveries Will Be Made in Many Large Cities.

Moscow, Oct. 23.—The official exchange rates on the dollar reached 165,000 rubles on Thursday.

The American Relief Administration's food draft system has been accepted by the Soviet Government. Deliveries of food packages will be made in Moscow, Petrograd, Kazan, Simbirsk, Samara, Saratov, Ufa, Novorossiysk, Tashkent and Orenburg against food drafts bought in the United States.

M. Bogdanoff, chairman of the Economic Council, declared that in view of the lack of big local capital, small leases of factories and plants would be granted on the principle that repayment be made to the Government by a certain percentage of the products.

M. Bogdanoff said that in a few days he would propose a decree making possible the leasing to private interests of the platinum and gold industries in the Ural.

ALL PORTUGAL QUIET WITH MARTIAL LAW

No Disorders Mark Funerals of Officers Killed in Revolt as Ministry Fell.

Lisbon, Oct. 23.—Since the proclamation of martial law following the overthrow of the Ministry last week, perfect order has been maintained throughout the country.

There were no untoward incidents to-day when the funeral of the naval officers killed in the revolution of last week took place. Likewise the funeral of Admiral Machado dos Santos passed off quietly.

President Almeida offered the family of Premier Granjo a mausoleum in which to place his body, but the widow of the Premier declined to accept, saying she would take the body to north Portugal for burial.

The Government also offered to hold funerals at which national honors would be rendered to the other high persons killed in the disorders, but the families all declined to accept, saying they desired to hold private funerals.

Military forces are patrolling the suburbs with orders to disarm all civilians and to maintain order at all cost. A Government note repudiates energetically such acts of the revolutionists as made victims of Premier Granjo and announced that the Government will proceed with investigations so as to be able to punish those who took advantage of Wednesday's movement to commit acts of personal vengeance.

It is reported that when the President of the Republic asked Manuel Coelho, who formed a new Cabinet after the overthrow of the Granjo Ministry, to prevent further acts of violence, he replied: "Those who commit them are not men, but wild beasts. If I catch them I will have them shot. I risk my life but to save the honor of the Republic."

When the British cruiser Calypso was entering the port to-day one of the guns in the fortress which was firing a salute exploded, killing one soldier and gravely injuring three others. British, French and Spanish warships are now lying in the Tagus River.

President Almeida and other Government officials have promised the widow of Minister of the Colonies Maia, who was killed during the disorders last week, to do their utmost to discover and punish the guilty persons. The Minister of Commerce and several other prominent officials have announced their intention to quit their posts unless the Government takes steps to apprehend persons guilty of the killing of the Ministers.

CYCLONE WILL DELAY JAP ENVOYS ONE DAY

Sunday Devoted to Repairing Damage to Vessel.

ABOARD STEAMSHIP KASHIMA MARU, Oct. 22 (By radio to the Associated Press).—To-day was devoted on this ship, which is carrying the principal Japanese delegates to the Washington conference, to repairing damage caused by the cyclone through which the Kashima Maru passed. One day was lost hoping the storm, and the party now hopes to reach Seattle October 29.

HONOLULU, Oct. 22.—Baron Shibusawa's party, representing the Japanese-American Relations Committee of Tokyo, an organization formed to promote a cordial understanding between the two countries, arrived here to-day. The party was tendered a banquet by the Honolulu Chamber of Commerce, and will leave on its way to the Washington conference to-morrow.

JAPAN STILL AN ALLY, LONDON REMINDER

LONDON, Oct. 23.—In an editorial, under the general heading of "No Frills Wanted at Washington," the Sunday Times, which has no connection with the London Times, says it could wish for nothing better than the reviving of the Versailles Treaty at Washington, but that the Versailles mistakes must be avoided. It continues: "We must begin the new conference on the theory that there are no criminals among us, and no salute. At Versailles the Allies were judges, trying one who had been heavily defeated in crime. But it is not so now. Japan is an ally, not a criminal. She is ambitious, but ambitions are not irreconcilable with the world's safety or international justice. The firm friendship of England and America is the only foundation of peace and liberty, but the most serious obstacle is in the assumption of an extra dose of original virtue to Great Britain and America."

SPAIN TO PUNISH EDITORS

MADRID, Oct. 23.—Editors and others committing offences against orders of the Ministry of War with reference to the publication of rumors which might affect army discipline, are to be severely dealt with. It is announced that they will be made to appear before military courts for judgment.
